Luka Kurešević | Лука Курешевић

Lausanne, Switzerland | E-mail | Website | LinkedIn

Education

School of Computer and Communication Sciences, EPFL Sep 2026 – [Present]
MSc in Computer Science

Faculty of Sciences, University of Novi Sad Oct 2023 – Jul 2026
BSc in Computer Science

Jovan Jovanović Zmaj Grammar School, Novi Sad Sep 2019 – Jun 2023
Programme for students gifted in mathematics

Research Experience

Parallel Systems Architecture Lab, EPFL Sep 2026 – [Present]
Research Assistant
Focus: Coarse-grained reconfigurable architectures.

Parallel Systems Architecture Lab, EPFL May 2025 – Jul 2025
Research Intern
Focus: Routing algorithms for FPGAs.

Professional Experience

Microsoft, Belgrade Nov 2025 – Mar 2026
Software Engineering Intern

Projects

Agentic Timing Closure for FPGAs Apr 2026 – Aug 2026
Faculty of Sciences, University of Novi Sad

Publications

PathSteiner: Improving PathFinder with Quasi-Optimal Steiner-Tree Initialization.
Shashwat Shrivastava, **Luka Kurešević**, Alexandros Poupakis, Chirag Ravishankar, Dinesh Gaitonde, Stefan Nikolić, and Mirjana Stojilović.
Proceedings of the IEEE International Symposium on Field-Programmable Custom Computing Machines (FCCM), 2026.

Awards, Honors & Scholarships

Faculty of Sciences Ambassador 2026
Faculty of Sciences, University of Novi Sad

Honorable Mention (7th place) as part of team Novi CAD 2026
Agentic FPGA Backend Optimization Competition, FPL 2026

IC Master Research Scholarship 2026
School of Computer and Communication Sciences, EPFL

Merit-based Student Scholarship 2024, 2025
Ministry of Education, Republic of Serbia

Skills & Languages

Programming Languages: C++, Scala, Python, Java, Lean

Tools and Frameworks: VTR, Vivado, PyTorch

English (C2, Cambridge Proficiency Exam), **German** (B1, Internationales Kulturinstitut Vienna), **Serbian** (Native)
